

Riverbend Community Math Center Fall 2017 Math Studio

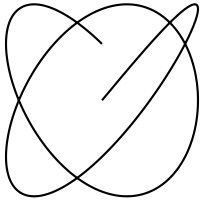

Riverbend Math Studio supports student learning of math, from those working on multiplication and division to those struggling with their calculus homework. This is a free program for people of all ages, providing STEM enrichment as well as math help. Interested students may drop in for a visit or contact us at (574) 222-1515 or hello@riverbendmath.org. The first time a minor attends, a parent must come along to sign paperwork. Students below sixth grade are asked to complete an interview so that we may place them in a class.

Centro Comunitario de Matemáticas Riverbend Otoño 2017

Estudio de Matemáticas

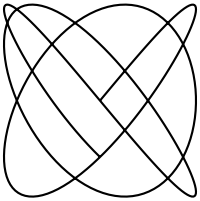

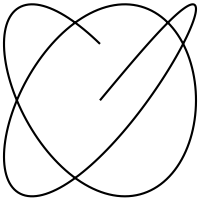

Estudio de Matemáticas apoya el aprendizaje de los estudiantes de matemáticas, de aquellos que trabajan en la multiplicación y la división a los que luchan con su tarea de cálculo. Este es un programa gratuito para personas de todas las edades, con enriquecimiento de ciencias y matemáticas, y también ayuda de matemáticas. Los estudiantes interesados pueden visitarnos o contactarnos al (574) 222-1515 o hello@riverbendmath.org. La primera vez que un menor asiste, un padre debe venir para firmar el papeleo. A los estudiantes de menos de sexto grado se les pide completar una entrevista para que podamos colocarlos en una clase.
