SPANISH CLUB

Hola! In Spanish club, the children have come to find that Spanish is not only spoken in Mexico, but in 21 other countries! They have also learned that you cannot judge where someone comes from based on what they look like or what language they speak. The students will be choosing one of the 21 Spanish speaking countries and creating their flag. Once done, we will be looking to hang these up here in Success Academy for all to enjoy! Soon, we will be learning how to make pastel de tres leches, a traditional cake made in South America and Mexico, (cake of 3 milks) and be enjoying some as well.

NURSE AIDE

Coughs, Age 11 and Younger - Prevention

Make sure your child washes his or her hands often during the cold and flu season. This helps prevent the spread of a virus that may cause a cold or influenza.

Remind your child to cover mouth with both hands when coughing or sneezing. Even at day care centers, ask the staff to wash their hands often to prevent the spread of infection.

Make sure that your child gets all of his or her vaccinations, especially for diphtheria, tetanus, and pertussis (DTaP) and for *Haemophilus influenzae* type b (Hib). For more information, see the topic Immunizations.

Help your child avoid secondhand smoke. Don't allow smoking in your home or around your child.

Try to avoid people who have colds or flu. If one of your children is sick, separate him or her from other children in the home, if possible. Put the child in a room alone to sleep.
